

# Transitvue Communication Systems

## TransitVUE® TV-MP-i100

The TransitVUE® TV- MP-i100 is the perfect media player for a low cost, low power, and compact digital signage system. The solid steel frame construction offers a highly vented design with fanless operation and supports various configurations of drives and add-on cards. The player can be easily positioned behind an LCD using a CPU bracket mount or within an environmentally controlled enclosure for outdoor use.
